

HOSPITALS OF HOPE INTERNATIONAL INTERNSHIP PROGRAM DESCRIPTION

This program has been designed to meet the needs of students and individuals who wish to pursue an internship in the area of missions and ministry through their chosen professional field, as well to be a support to the ministry of Hospitals of Hope International. The internship program is based in our US office in Wichita, Kansas, and offers a variety of opportunities to serve Christ in the medical missions ministry.

Internships are tailored to meet the needs of the individual and the ministry, in the following areas: Social Service Administration, Missions, Ministry, Public Relations, Non-Profit Leadership, Fundraising/ Grant Writing, Media/ Communications, Computer Science/ Web Design, Sociology & Accounting to name a few. The flexibility of this program is unique to many internship programs; hours can range from 10 to 40 hours per week. Each intern will meet with their staff supervisor and develop a special project that they will be expected to complete during their internship. This project will be designed to the creative interests of the intern and to meet the needs of Hospitals of Hope. Examples of some project possibilities include; creating informational videos, brochures, newsletters, etc. about the ministry of HOH, creating an effective volunteer program, website design and computer presentations, fundraising projects such as golf tournaments, the Banquet of Hope, campaign for the Bolivia Children's Hospital Project, grant writing, etc.

The requirements of your internship program as laid out by your school and university will also be reviewed to determine if all criteria can be met.

Internship positions are not paid positions, though in certain situations interns may have the opportunity to raise financial support. The internship site is located in Wichita, Kansas, but interns have the possibility of traveling to our Bolivia site with a mission group or for an individual project. Financial support may be raised by the intern to cover these expenses.
